

Q1. Positive Number

Code:

```
class CheckPositive{
    public static void main(String[] args){
        int a=15;
        if(a>0){
            System.out.println("Number is Positive");
        }else{
            System.out.println("Number is Positive");
        }
    }
}
```

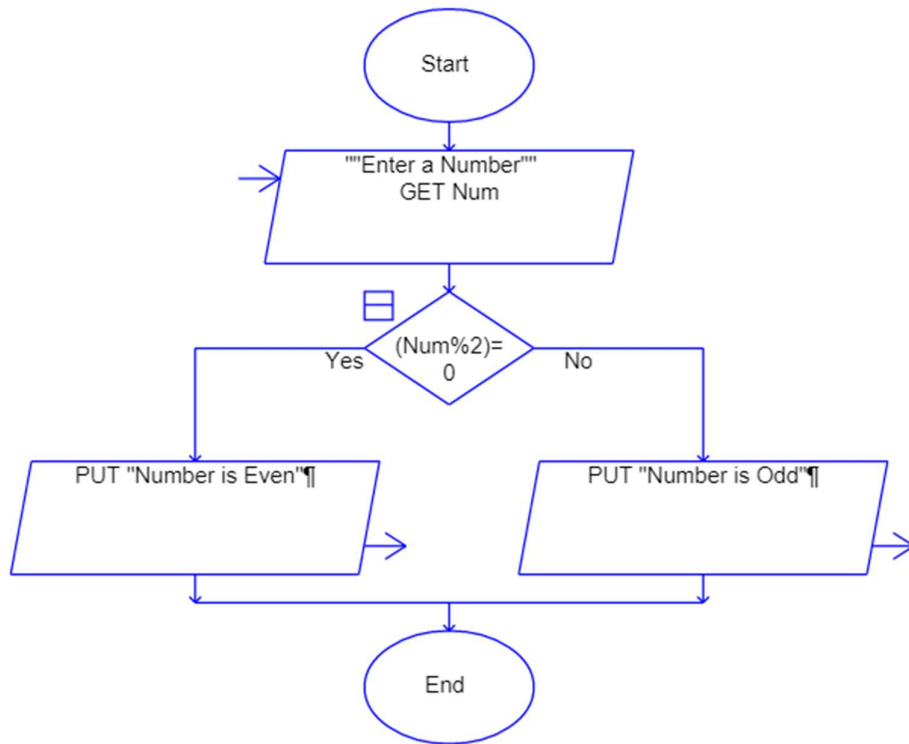

Q2. Negative Number

Code:

```
class CheckNegative{
    public static void main(String args[]){
        int num=-55;
        if(num<0){
            System.out.println("Number is Negative");
        }else{
            System.out.println("Number is Not Negative");
        }
    }
}
```

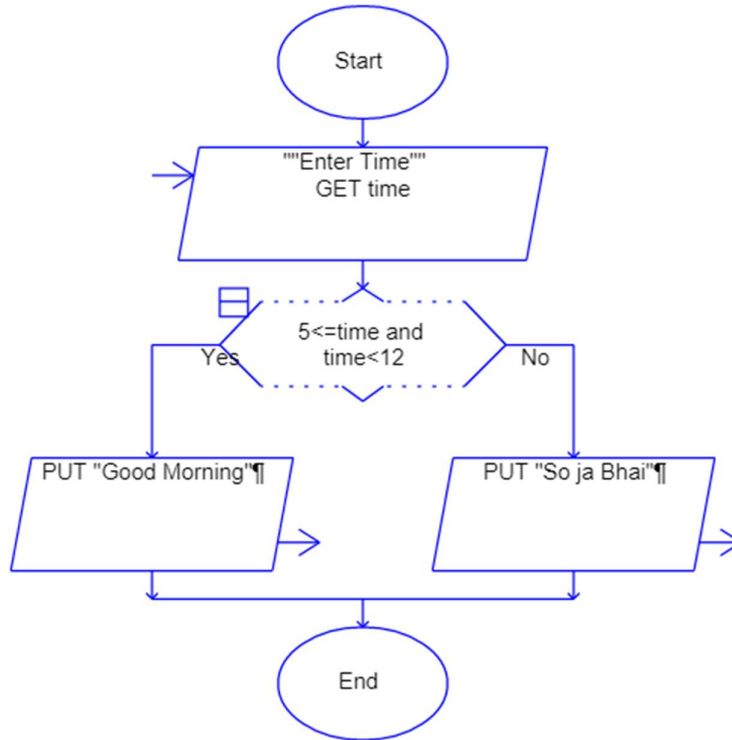

Q3. Even Odd

Code:

```
class OddEven{  
    public static void main(String args[]){  
        int a=14;  
        if(a%2==0){  
            System.out.println("Number is Even");  
        }  
        else{  
            System.out.println("Number is Odd");  
        }  
    }  
}
```

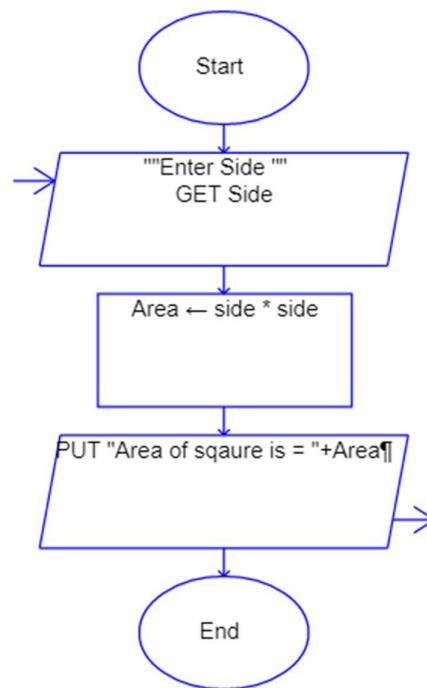

Q4. Good Morning Print

Code:

```
class GoodMorning{
    public static void main(String args[]){
        int a=1;
        if(a>=5 && a<12){
            System.out.println("Good Morning");
        }else{
            System.out.println("Soja Bhai");
        }
    }
}
```

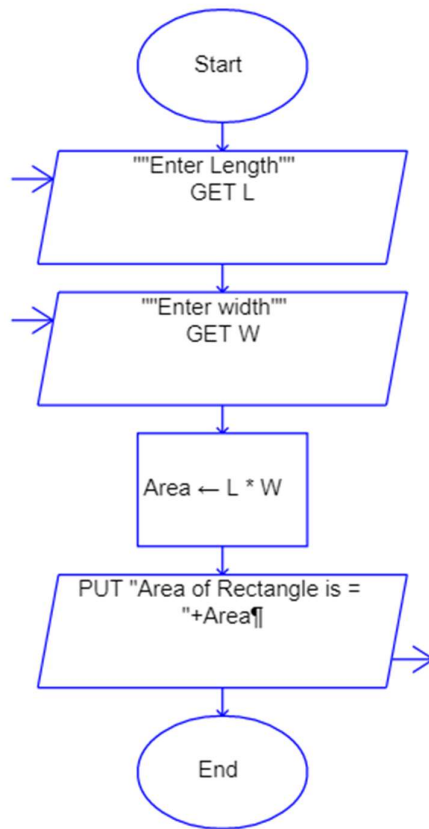

Q5. Area of Square

Code:

```
class AreaOfsqare{  
    public static void main(String args[]){  
        int side=8;  
        int Area=side*side;  
        System.out.println("Area of Square is "+ Area);  
    }  
}
```

Q6. Area Of Rectangle

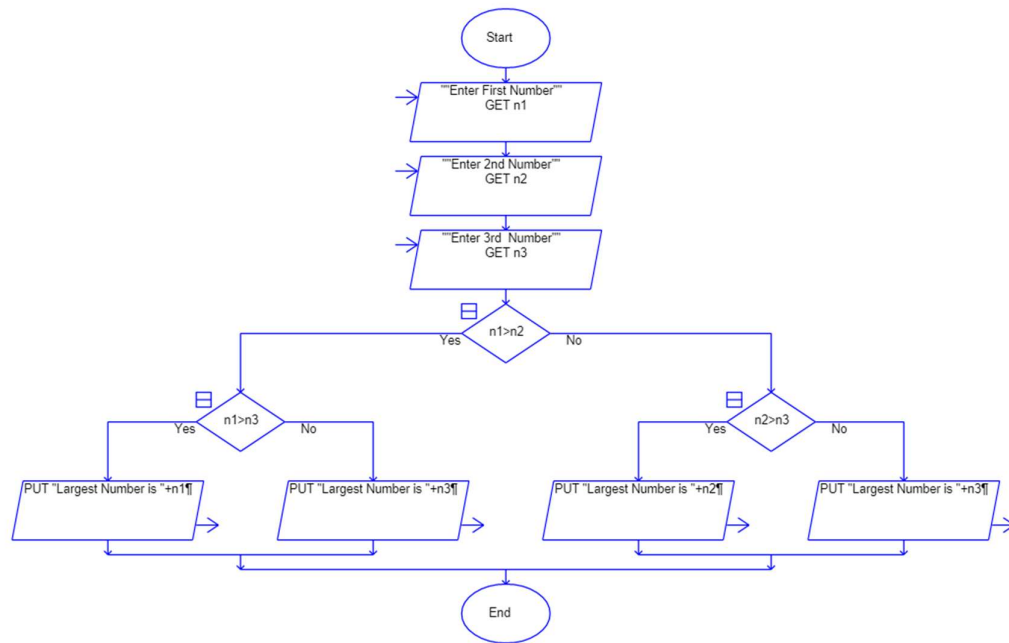

Code:

```
class AreaOfRec{

    public static void main(String args[]){

        int length=12;
        int width=10;
        int Area=length*width;
        System.out.println("Area of Rectangle is "+Area);
    }
}
```

Q7. Find Largest Number

Code:

```
class LargestNum{
    public static void main(String args[]){
        int num1=14;
        int num2=15;
        int num3=13;
        if(num1>num2){
            if(num1>num3){
                System.out.println("Largest Number is "+num1);
            }else{
                System.out.println("Largest Number is "+num3);
            }
        }else if(num2>num3){
            System.out.println("Largest Number is "+num2);
        }else{
            System.out.println("Largest Number is "+num3);
        }
    }
}
```
